Dear sirs

I have only recently moved to the area and I chose this area for its peacefulness, hardly any traffic and lots of green spaces of outstanding natural beauty that surround my property. Building N32 will put a strain on our villages infrastructure, roads, education, healthcare, and the lives and safety of the current villagers, not to mention also the effect on our properties prices which would plummet because of the increased risk of flooding. Please don't turn chartham into another concrete jungle I have just moved from one and the constant traffic and noise day and night is awful, here I can see the stars, get a peaceful nights sleep, and work from home on the three days I do in complete peace and quiet. Chartham is a beautiful village please don't ruin it please look at other brownfield sites to build on.

Kind regards

Lisa (a new but very concerned resident)
