Dear Sirs, please stop these developments. The community cannot absorb any more houses with extra families moving into the area. We do not have enough school places, enough Doctors appointments, a nearby A&E , any NHS dentists for the current population , let alone the houses already being built yet not yet occupied. Our water company admits regularly pumping raw sewage into our sea. We have potholes rather than roads where there is so much traffic already. Please please listen to our fears and objections and STOP these planners making millions by destroying our farmland and increasing the pressure on our day by day lives.

Yours Sincerely Mrs Louise Gadilhe
