I am writing to oppose the planning of housing development in chartham .

I have been a resident in this village for 11 years. Our children go to the local school here also.

We feel very strongly against the planning of a vast amount of houses in this area. As it is already the roads are struggling to cope with the volume of traffic. More houses (especially that amount) will only over flood the roads and cause too much congestion and accidents. The roads are not equipped to cope as they are so this will only cause more deterioration.

The traffic near and outside the school is awful and once again more houses with cars is going to cause pollution and traffic.

We feel very strongly that building in the village will be of a detrimental effect. The village will loose its identity and become over populated.

The roads, school, doctors and environment will not be able to cope.

mrs o'connell
