I lost my dog a few days ago after 15 years. He was all I had, in fact he was my whole world. For over a decade we were on Thanington recreation ground 4 to 5 times every day. I have probably used this field more than anyone over the last few years. It didn't matter whatever season, summer or winter, it was our playground. Over the years, I've met hundreds of dogs and their owners who have used this green space. Like me, it was their sanctuary, a place to let of steam, play and part of a healthy and enjoyable lifestyle. In time I would love to re-home another companion but the thought of our walks around a concrete estate is so off putting.

Please save this precious little oasis.

Yours sincerely,
Carl Ginn.
