I am responding to the following question:- Do I have any comments on the proposed deletion of Land north of the University of Kent.

My name :- Clare Jones. [REDACTED] I was so pleased that C12 was deleted from The Local Plan. There are so many reasons why development of this precious land would be criminal. The Blean is an area noted not just locally but internationally. The university itself has been involved in research in the past. I refer to The Blean book published by White Horse Press in 2002. It is ancient woodland with so much diversity and wildlife. There is so much potential to look after the land and maintain it to create a future for generations. Houses are needed but the area is not suitable for mass housing. The road structure is insufficient and at the consultation meetings there was really no solution other than public transport which is not a practical answer. The developments at Herne and Herne Bay have a considerable impact on Blean and Tyler Hill. Demolishing Blean Primary School would cause considerable disruption and enormous cost Thank you to the councillors who listened to the concerns of the public. Please continue to protect The Woodlands and history of a Cathedral City.
