To whom it May concern

I am writing to formally object to the proposed development of the greenfield site on Rattington Street .

This seems a very poorly planned proposal which gives no proper consideration to infrastructure development and support for the impact this will have on the villages of Chartham and Shalmsford Street.

Whilst I support the need for more houses to be built and the proposed development of the Paper Mill makes sense , we need to see much more being done to create better and safer roads for our children to walk along once the population increases through two developments .

In addition we already have problems with water supply, drainage, public transport and local wildlife protection . None of which is addressed and accounted for in the proposals.

I wholeheartedly object to this proposal.

**With warm regards
Dani Salter
Chartham Resident**
