Subject: Spring Lane Neighbourhood Centre, to be demolished!!!!

[REDACTED]

--Email From External Account--

Dear Whoever it may concern,

This is outrageous news I hear today. A community to be destroyed and demolished for houses.

Whoever is considering this must know the vital importance of those whose life line facility this building represents.

The history of the purchase and building project needs to be understood by you.

The local people raised money over years to fund and complete this project and it has been a part of the community for 50 years.

Many charities utilise the building weekly, to benefit local community in a way that cannot be achieved elsewhere.

From adults to elderly to children and youth and disabled people from the area, this is a vital lifeline.

I am a volunteer at the Tuesday Lunch Club, Route 23 cafe. I have seen the impact of lives being altered and people supported, in good times and bad.

The anniversary of Route 23 takes place next Tuesday 29th October. The Major will be present, perhaps you should come and experience this for yourself.

The impact on myself over eight years has led me to write with a passion for this centre to continue. Yours

Faithfully,

Fiona Trimmer
