Dear Canterbury City Council,

I am a resident of Canterbury,
Gillian Cowperthwaite,

[REDACTED]

I want to thank you for your proposed deletion of land north of the University of Kent. (Policy C12) As a resident of Link Road, I was relieved to note that the Council understood the detrimental effect and the ensuing traffic problems that the Policy would incur. Also the costs would not be cost-effective.

Even closer to my heart and to that of all nature- lovers was the threat of destruction to Ancient woodland. Once lost, this fundamental feature of the Kent countryside could never be recovered. The loss of wildlife and habitats would be unremittingly terrible.

Thank you so much for listening to the concerns of those who live within the area of Policy C12.

Hopefully, these same objections would apply to any possible future proposals for a large development in this location.
