Dear Sirs

I have been informed that National Highways wish to create a lorry park for 20 trucks at Ropersole which is part of our parish of Womenswold .

I am opposed to this as there is no proposal to provide sanitary facilities. It is not difficult to provide showers and toilets with a septic tank. Without these it is unhygienic and will result in truck drivers leaving their waste adjacent to a residential community. Truck drivers deserve to be provided with humane conditions.

There will also be an impact from both noise pollution with engines running at night and light pollution. Please oppose the proposal with National Highways and get this removed from the Local Plan.

Yours sincerely

Imelda Rendell
