Hello

This email is written on behalf of Sue and Keith Lamb of [REDACTED], responding to the question: Do you have any comments on the proposed deletion of land north of the University of Kent (Policy C12)

We agree with the deletion of the policy C12 from the local plan.

It is essential that the ancient woodland should be allowed to thrive for this and future generations. The impact of any building, on the roads and surrounding area would be devastating. Blean school should remain.

We would hold the same objections to any possible future proposals for large development in this area.

We wish to thank the councillors for having listened to the concerns of local people.

Yours sincerely
Sue and Keith Lamb
Jane Neame
