Very unhappy with short consultation period on a rushed planning decision clearly taken after Blean community successfully resisted the massive development proposed in their area.

Years of careful work to develop a neighbourhood plan for Chartham is being bulldozed by your rushed agenda.

The greenfield site is outrageous in its scale with no plans to improve infrastructure in terms of roads, healthcare, traffic pollution.

It ranks with the outrage of removing thannington's recreational area in that deprived community.

If a proper consultaton was done the A38 through Chartham could provide the parking for a park and ride.

Slow down do things properly with communities embrace the chartham neighbourhood plan, do NOT undermine it.

Yours sincerely Jay Day
