Re: "Local Plan Consultation 2025"

I hereby object to policies N20, W4 and W6 because I believe Whitstable roads cannot cope with so many more new homes without causing unacceptable highway safety problems. Recent planning applications suggest that the Council have not adequately assessed these problems and considered whether suitable solutions are possible.

Also: I specifically object to W4 Brooklands Farm and the proposed A299 junction, because a new junction would trigger additional developments alongside the A299 New Thanet Way, causing even more problems with traffic, water shortages and sewage pollution on our coast. Also increasing the extra load on our current Health Service and GP Surgeries.

Ms Linda White and Mr A Connelly
