Please see below my re-sent email re: CCC's N32 development - Rattington Street Chartham.

I have signed my full name as requested.

I write with my objections to the above:

Firstly, it is criminal to build on Farmland. We need the land not only for farming but for reducing the risk of flooding by taking over the land with concrete!

Rattington Street is also already a dangerous road for pedestrians, drivers and animals. An additional possibly, 350 more cars using this road will surely result in death(s) as the road is too narrow, the speed limit too high and, sadly, in some cases drivers drive in a dangerous way!

The healthcare facilities in the village cannot cope with another 170 families. The two surgeries are already stretched to capacity!

There is one primary school in the village, how can this accommodate more children?

The road through the village from Rattington Street towards the station is also dangerous for pedestrians, animals and drivers. Again the speed limit is too high, the road too narrow and the risk of accidents high!

Please do not risk the lives and wellbeing of those who currently live in the village by approving the building of these houses. It will cause many problems and ruin our beautiful village.

Thank you for your response to the draft Local Plan: Focused consultation 2025. Unfortunately, we are unable to record responses without a first and last name as sign off. This is to ensure we are only receiving 1 rep for each consultee and we are not receiving duplicates. Would you kindly resend your email and include your first and last names as the sign off please. Once this is done, we will be able to confirm it has been recorded and will be considered in the next stages of the Local Plan process.

Kind Regards,
Consultations Team
Canterbury City Council
