To whom it concerns,

I am writing in relation to the following question:

Do you have any comments on the proposed deletion of land north of the University of Kent (policy 21)?

I agree with the deletion of this proposal due to the negative impact that it would have on the surrounding area, in which I live. We need our green spaces. We do not need more road pollution (traffic pollutants, noise or car congestion) in this area.

The woodland is ancient and much valued and we need to protect green spaces.

I would not support any major developments in this area such as that which was proposed.

Thank you for taking the time to listen to the residents concerns and for reconsidering the proposal given the opposition.

With kindest regards

Paula and John Curry,
[REDACTED]
