Dear planning team,

Please reconsider building a car park on the park at thanington. This resource is a really important resource for the local community. A multi story could be built in the industrial area to meet the need.

Additionally I wander what more could be done to make planning accessible to the wider community, the consultations paperwork and on line system is difficult to navigate and understand. Perhaps some service user consultation is needed too enable more people to have their say on matters that directly affect them.

Thank you

Anna
