Subject: Objection to local plan N32

--Email From External Account--

This proposal would overwhelm Chartham's roads, services and countryside — it is the wrong site for large-scale housing.

Rattington Street is a narrow rural lane already unsafe for current traffic. Adding hundreds more vehicles would make conditions dangerous for residents and children walking to school. Local roads, drainage, GP and school capacity are already overstretched.

The site lies beside the conservation area, within open countryside that defines Chartham's character. Building here would damage the landscape, increase flood risk and destroy valuable farmland and wildlife habitat.

This plan is unsafe, unsustainable and unnecessary. Please refuse the N32 proposal in full.
