It has come to my attention that the draft plan Policy N18 for new homes at Sussex Avenue will mean that the community centre will be built over in the process. I object to this proposal. This is not forward thinking for the spring lane community. The centre provides a safe space for people to meet, to feel part of the community, to ease loneliness and to help with people's mental wellbeing. It will be a great loss to the people who live in the area.
