

We object ~~the~~ Park > Ride Plan

Thanington recreation ground is the only green area around the estate. The field is used by football teams for training and matches, the teams are mixed age groups from all parts of Canterbury > beyond. The play park is enjoyed by younger children and the BMX track and all weather court is a great place for older children. The Resource Centre provides a base for a Youth Club helping to cut down on ASB! and different club activities, its also a good place for meetings to be held. There are now hundreds of new build houses next to the estate with many more families

This is the only open green space around us for everyone to use. The recreation ground, play areas and Resource Centre are the vital part of our community.
