Dear Sirs

I strongly object to this developments for the same reasons as my last.

The fact of having another 220 houses on top of the already proposed 1350 houses and new developments that have appeared over the last 10 years has and will stretch the surrounding facilities especially the water supply and waste water we are already experiencing, the road congestion, pollution will get worse and not to mention the healthcare in this area is overstretched at the moment and will only get worse.

These beautiful areas will be lost forever and Whitstable and surrounding area will loose it charm it has grown over the years and become less desirable area to live.

This is a ridiculous idea and I object to it strongly.

Mr E Booth-Adams
