Dear Sir

With regards to planning application N21, land at Golden Hill, I wish to object to the planning application due to extra congestion on old Thanet Way - already overloaded by development at Whitstable Heights and Pearson Heights; added pressure on drainage systems; water supply (already on hosepipe ban and suffered water loss some months ago due to extra consumption and lack of rain); schools; GP surgeries and hospitals, (which already have high demand). Also this development would be detrimental to wildlife - foxes and rats are already being increasingly seen in nearby residential areas.

it would seem that Whitstable is being saturated with proposed developments which it cannot sustain.

Yours

Mrs J Payne
