--Email From External Account--

Please find attached my response to the Draft Local Plan "Regulation 19" Consultation.

I suffer from a chronic neurological condition that affects me to varying degrees both physically and cognitively. This means I have sought help to compose this email, despite this & the fact the wording may be very similar to other emails you have received, I assure you all the views, opinions & concerns are completely my own. I feel extremely strongly that the Draft Plan is not sound due to the many factors I have stated & the overall lack of existing infrastructure in the area to support the plans proposed in the draft. I ask that you take my response into account when making your decision on the suitability and efficacy of the plan.

With kind regards,

Michelle Saunders
