I am writing with concern to see that the bread and cheese field in Westbere is still a potential site for housing. And of major concern is to see that the housing development team at CCC and Ben Hope who is paid by Wates Construction have manipulated the boundaries of Westbere stating that residents are not villagers/part of the village in the distal portions of Bushy Hill road or Westbere lane which is absolutely ridiculous, so a portion of people living in the same road are not part of the village...what nonsense! My house is within the conservation area despite being in the distal portion of houses so this is also incorrect. This boundary change was not included previously in the proposal and therefore the consultation period has not been meaningful and planning regs 2012 not adhered too.

There are such concerns regarding the addition traffic in the area, impact to the environment as Westbere is nature rich as well as education provision and the infrastructure such as water pipes/sewage to support these houses.

Westbere needs to be protected by green spaces around its boundaries...not the ones invented recently! It is a stunning village with so much history and character and deserves to be protected. Shame on you all if it doesn't. I urge you to visit the village and enjoy it and see what could be lost.

Thanks for your time.

Kind regards  
Hannah Padfield
