I am extremely concerned to learn that the Bread and Cheese Field in Westbere is still in danger of becoming a site for housing especially after the fullsome consultation last year confirming that the boundary had been been moved back onto the Westbere Parish Council. Suddenly out of no where we understand the Housing Development Team at CCC and Ben Hope (WHO IS PAID BY WATES CONSTRUCTION) have manipulated the boundaries of Westbere (is this legal? it would be interesting to have a legal view on this) stating that residents are not villagers/part of the village in the distal portions of Bushy Hill Road or Westbere Lane what nonsense!!! so a portion of people living in the same road are not part of the village why are our local council so set on destroying Westbere's village life with additional traffic, impact on the environment (what will happen to all the owls that are nesting there!!) by being party to Wates Construction plans who would leave after destroying an important village in the Kentish Countryside. Where is the infrastructure for water pipes/sewage to support any of this.

Please keep me informed as things develop as think this needs to be monitored closely so everyone can be aware of what is proposed.

Thank you
Pauline Witchell
