Good Afternoon

You have been told repeatedly NO to any further development.

The increase in Students in the area has turned Canterbury in to a student ghetto where the drop in housing for local people ,the increase in rental returns for accommodation and the decrease in Council Tax for these Properties has resulted in severe hardship for the true residents to whom you have no interest.

Please do not Gaslight us and say you are involving the community when you have clearly already made your decision.

NO !NO !NO !

Mr Samuel Kimbell

Resident of the area for 50+ years.
