Dear who ever it may concern,

I wish to object to any development on the above land . It's an area of outstanding natural beauty and in a local conservation area.

The Nailbourne is a rare water stream and due to climate change, is running more frequently.

When the ground water is high , we have back flow on our drains, causing me to pump raw sewage into Valley Road next to Barham Primary School. I raised this concern to Canterbury city council at the time of flooding.

Anymore added pressure to the drains will exacerbate this problem .

Yours faithfully

Max Falcke
