Hi ...

As a resident in Westbere village I am against further building in our village .  
We have very narrow lanes ...residents with no driveways already park in the road making passing through very awkward and emergency vehicles cant always get through or the bin men who just leave bins due to this.Parking in the 20mph lanes still doesnt stop people breaking the speed limit.As publicity has picked up about our quaint village we are experiencing more parked cars ...people walking dogs gangs of boys all going to the lakes...leaving dog mess and litter .  
We are not nimbys but as the village has few passing places in the lanes ...more lorries and car or vans will make life pretty unbearable .Some potholes are just left...and damage to trees etc all goes against our village .  
Along Westbere lane the edge of the road we have to use to allow passing other cars looks as if it could give way and requires investigation...Church Lane is not very wide and further houses means more cars and disruption..

Regards Linda and Peter Bennett.
