We are very concerned about this development. A) infrastructure of roads is jam packed at Sainsbury's roundabout, currently. Infrastructure would not be able to cope with the influx of new homes and amount of traffic on this scale B) doctors, schools will not be able to cope with new population despite new schools being built and doctors surgeries. Recruitment is an issue. C) sewage / water supply will require massive investment by water company. Already struggling to deliver to current homes . Flooding an issue .D) loss of green space is a grave concern E) Current new builds are not selling in the area the wrong type of homes being built for current needs
