I wish to register my objection to The Merton Park projection/construction.

My reasons are as follows:

Without vehicular access from the A2 the amount of traffic having to use Hollow Lane will cause gridlock and chaos to that route.

The existing Hollow Lane traffic has to slow to almost a halt to allow passing in both directions at certain points.

To expect delivery lorries and trucks to use this route is ludicrous.

I assume this idea has been put forward by people who do not know the area or routes involved.

Regards

Bryan Cutting
