Planning Inspector

Please find my comments regarding the Canterbury District Plan

In my local area there have been no fresh water supplies on at least 2 occasions in the past year and we have had to depend on bottled water for drinking, washing and flushing toilets. Over 50years ago residents were promised a new reservoir at Broad Oak. Although we were led to believe this would be constructed in the space of 10 years there seem to be questions over funding.

HOW CAN NEW HOUSING BE SUPPLIED WITH WATER WITHOUT REDUCING SUPPLY TO EXISTING HOMES?

Likewise, we have sewerage issues with untreated effluent being released into the River Thames.

HOW CAN THIS BE RESOLVED IF MORE HOUSE ARE BUILT IN THIS AREA?

The volume of traffic has increased greatly in the 20 years I have lived in this area. Our road to Canterbury is a country road and in places double decker buses can hardly pass each other. Every time a new development is built in Whitstable, we find it harder to join the highway.

ADDITIONAL DEVELOPMENT IN CHESTFIELD AND WHITSTABLE WILL ONLY MAKE A BAD SITUATION WORSE !
