For attention of the Planning Inspector, Canterbury City Council

Along with most of the residents of this area, I am writing to STRONGLY OBJECT to the development of Brooklands Farm. There are so many reasons for this and I am listing some of them in no particular order but each one has its importance.

Whitstable and surrounding area certainly does not have the infrastructure to be able to cope with any additional housing or businesses . It is understood that many of the houses already built still remain unoccupied

It is already extremely difficult to obtain appointments at the medical surgeries and dentists in the area which can often cause severe problems for the existing residents already living here.

There is already a dramatic increase of traffic in the area causing problems without any additional developments

**The development of the area would cause severe flooding during times of severe weather particularly in Chestfield and Swalecliffe
Access to the proposed development of the area would be extremely difficult because of the increase in traffic . Construction of sliproads on and off the A299 Thanet Way would no doubt cause severe disruption on the Thanet Way because of lane closures**

If the development were to go ahead, It must be confirmed that there would be no access from Lismore Road and Rayham Road

There are many more significant factors which will already have been brought to your attention and I hope that these will be taken in your consideration.

Finally may I repeat that I am SRRONGLY against the plans for this development

Richard Senior,
