To all of those who think building on Brooklands Farm, is a good idea, I beg you to listen to the people who live close by, please, please...

1,

ALL our roads round here are in a terrible state, bumpy pot holes etc everywhere, accidents waiting to happen...including the the new Thanet Way!!

2,

Serious sewage problems, really, do you think another 1,400 homes are not going to add to that massive problem, it won't be long before you put another hose pipe ban in place too!!

3,

Wildlife & nature, does anybody care about it?? It is soo important for mental health, it's precious, when it's gone, it'll be forever.

I would like you to walk all around that area, it's stunning from every angle, it's disgusting that anyone wants to take that away from us.

There is soo much beautiful Wildlife there, please please listen.

4,

This is the Garden of England, it's know for it's brilliant land for farming, let's try & keep some of it.

I truly hope someone will listen to us, for our children & our grandchildren sake.

Many thanks,
Mrs Natalie Miles
