Mrs Kathleen Horton

Local Plan Options Consultation Canterbury City Council

Dear Sir/Madam,

I have received some details regarding the building of a bypass across Duke's Meadow, which I am writing to strongly oppose.

Duke's Meadow has always been a beautiful, peaceful, green space that is accessible to the local residents of Canterbury. It is a quiet haven where children can play and adults and families can walk safely, away from traffic and pollution.

This area is quite unique in that it has remained unspoilt and unchanged for many decades.

I feel very strongly about the Western bypass being built, as it will cause extensive destruction and disruption as well as pollution to the surrounding residential areas. It will also take away a much loved, peaceful, natural habitat with spectacular views across the city of Canterbury and beyond.

I sincerely hope that you will take the above information into consideration before tearing up more of the Kentish countryside.

Yours faithfully,
