Dear Mr Spooner

**Re: Objection to a Dual Carriageway at Rough Common (Western Bypass)**

We are registering our strong objection to this proposal. There are so many reasons why this is a ridiculous idea, including:

- National policy of zero emissions by 2050. This will not be achieved by building dual carriageways.
- Pollution would increase.
- Prime agricultural land would be destroyed – especially important with the growing need for food sovereignty.
- Woodland, scrubland and varied green spaces would be lost alongside related biodiversity.
- I thought that this area had Outstanding Natural Beauty status?

Cycle paths not dual carriageways are the way forward.

Yours sincerely

Amanda Greenaway

Dear Mr Spooner

**Re: Objection to a Park'n'Ride at Wingate Hill**

We are registering our strong objection to this proposal. There are so many reasons why this is a ridiculous idea, including:

- A fatality last week at this junction.
- A Green Field Site would be tarmaced.
- National policy of zero emissions by 2050.
- Canterbury High Street is dying anyway. After this pandemic would visitor numbers warrant more parking spaces?
- The other park'n'rides are not used to capacity as it is!
- I thought that this area had Outstanding Natural Beauty status?
- Harbledown and Upper Harbledown would no longer be villages but urban sprawl.

Yours sincerely

Amanda Greenaway
