I wish to lodge my objection to this explanation on the following grounds.

The expansion is in an area of outstanding nature beauty.

Is on a green field site.

The local infrastructure is completely inadequate for this expansion.

And from a economic view, where are all these people going to work.

There are many brown field areas in the Canterbury district which should be developed before any greenfield develop, for example a brownfield site near Calcott on the A291 which has been refused consent three times.
