Dear Council Team

Apologies this email is a couple of hours late.

I did try submitting a response via the website a couple of days ago but I got no acknowledgement that my feedback had been registered.

There are a lot of very good objectives but I very much oppose the preferred Option C and Option B.

Option A is much more preferable,

Options B and C are simply not in line with the council objectives on sustainability and decarbonisation.

There will be far too much traffic congestion and pollution in Canterbury with either of these options.

Option A meets the minimum objectives and is more sustainable.

I hope these comments can be considered,

Best regards
Ian Osterloh
