Dear Mike,

Please accept my apologies for the slight delay in getting Chartham Parish Council's comments to you regarding the Local Plan consultation, I had in my head we had until the end of today to get them in! I trust you can still accept them?

Rather than submit piecemeal through the website, the Parish Council felt it would be better to collate in one document (attached). The deadline for comments was extended originally to reflect the inaccessibility problems as the format of the consultation was changed. Councillors wish to point out that the Preferred Options document itself proved to be inaccessible via some popular web browsers and the documents in Google Drive likewise seemed difficult to access for some systems.

Although the consultation was extended, it may have been better to extend until September to reflect that many parishioners (and councillors) are absent on summer holidays. We trust that CCC will revisit how to consult going forward to avoid a repeat of the difficulties faced with this consultation.

Best wishes
Chenice

Chenice Howard-Sparkes
Clerk to the Council
